

Corte Clean®

**COMPOSITE
CLEANER**

• DECKS
• DOCKS
• FENCES

*"I used Corte Clean when cleaning our composite deck and can tell you in one word how well it worked. That word is **wow!** It is an excellent product to work with and our deck looks like **NEW** again."*
Corte Clean customer – Schenectady, NY

CORTE CLEAN® Advantages

Removes Stains Caused by Mold & Mildew, Grease, Oil, Rust, Tannins, Leaves, Pine Needles, Berries, Foods, Chalk, Wine, Sunscreen, BBQ, Wax, Mill Markings, Ground In Dirt, Spots, and more. If Corte Clean won't remove these and most other common stains, it's likely nothing will.

• Developed Exclusively For Composite Materials. • No need to purchase & apply multiple products for specific staining issues. • No risk of accidentally or intentionally mixing dangerous chemicals. • Eliminates wasted time, cost, guess work, labor & risks. • No need to purchase & riskily add or use Chlorine Bleach. • No Sodium Hypochlorite, Oxalic Acid, Ammonia or Phosphates. • No harsh chemical smell. • Non-Corrosive to structural metal. • Will not cause rust stains. • Safe to rinse into natural waterways. • Environmentally Responsible.

EQUIPMENT NEEDED • Pump Sprayer • Hose • Bucket • Brush • Mixing Stick

APPLICATION Intended to clean composites such as: Trex®, TimberTech®, Fiberon®, Portico®, WeatherBest®, Veranda®, ChoiceDeck®, NewTech®, Oasis®, AmeriDeck®, Azek®, Boardwalk®, Correct Deck®, Symmatrix®, Cross Timbers®, EverGrain®, Everex®, GeoDeck®, Greenland Composites®, VEKAdeck®, UltraDeck®, Millennium®, MoistureShield®, Monarch®, Nexwood®, PrairieDeck®, Procell®, RhinoDeck®, SmartDeck®, Tendura®, UltraDeck®, Latitudes®, Terratec® and Xtendex®. NOTE: Brand names are trademarks of their respective owners.

• Use Corte Clean at least twice yearly, spring & fall, or when stains appear. • Works best in direct sunlight between 65° to 85° F. (19° to 29° C.) when composite is completely dry. • Remove all items from composite, such as tables, chairs, plants, etc. To avoid damage, cover or protect areas & items not intended to be cleaned, such as glass, aluminum, etc. Water plants before & after use. • Hose composite with water. Brush surface to remove loose dirt & debris. Remove debris from in-between boards. Make sure composite drains properly.

• Allow composite to thoroughly dry before applying Corte Clean. • Do not clean more than one section of railing/fencing or 10 square feet (1m²) of decking at a time. • Apply heavy, even coat of Corte Clean with pump sprayer starting at highest point. • Allow Corte Clean to stand on composite until it becomes dirty, discolored or approximately 20 +/- minutes, keeping area wet with additional Corte Clean. • Do not allow dirty Corte Clean to dry on composite. • Scrub with brush if necessary. If more abrasion is necessary, sprinkle Corte Clean powder directly on composite that is wet with Corte Clean, scrub with brush.

• Rinse with water. Water magnifies stains. If stains are still visible, repeat application process. Composites that have tough stains, been neglected or previously cleaned with other products and/or sealed may require several applications & additional Corte Clean. • When Corte Clean no longer becomes dirty or discolored, it can be diluted & allowed to dry on weathered composite surfaces. Corte Clean is designed to continue to clean any time it receives moisture. A white residue may remain until thoroughly rinsed (use a brush if necessary). Thoroughly rinse composite prior to using.

MIXING INSTRUCTIONS/Buscar Adentro para Instrucciones en Espanol • Wear appropriate skin & eye protection! • Add 1 gallon (3.79 L/3790ml) of water to plastic bucket using pump sprayer measuring device or 32 scoops with the provided 4 oz. (1/2 Cup) measuring device. • Add 4 to 5 scoops (16-20 oz/2-2.5 Cups/ .47- .59L/473-591ml) of Corte Clean powder to water. **MAXIMUM STRENGTH** of 5 scoops may be necessary to remove stains. Use up to 2.5 scoops (10 oz/1.5 Cups/ .3 L/296ml) for routine cleaning. • Mix until all Corte Clean powder crystals are dissolved. • Pour into pump sprayer. • Use Corte Clean solution within 2 hours of mixing. • 1 gallon of mixed Corte Clean should cover approximately 125 +/- sq. ft. (11.6 +/- m²) depending on condition & porosity of composite. **WARNING!** Increased strength may speed up weathering of some composites, especially those that are new. Always test first on inconspicuous area or sample of composite to ensure desired results. Do not use if not satisfied with results. • Do not spot clean unless entire composite has been thoroughly Corte Cleaned.

Demo Video, Tips, FAQs, Photos, Testimonials, MSDS, etc. can be found @ www.corteclean.com or by calling (415) 924-9500 or (888) 203-2202.

STORAGE & DISPOSAL Store new or un-used Corte Clean in original re-sealable packaging, away from combustible materials in dry, cool, area out of direct sunlight. Recycle empty packaging & scoop or dispose of properly in trash only if recycling is not available!

CAUTION/WARNING • PREVENT ALL SKIN, EYE, & ANIMAL CONTACT • KEEP OUT OF REACH OF CHILDREN & ANIMALS • DO NOT MIX WITH OTHER CHEMICALS/CLEANERS • USE ONLY WITH ADEQUATE VENTILATION • SKIN/EYE/NOSE/THROAT IRRITANT • DO NOT INGEST OR BREATHE DUST • MAY MAKE SURFACE SLIPPERY • HIGHLY ALKALINE • CONTAINS: SODIUM PERCARBONATE & SODIUM METASILICATE

FIRST AID In case of skin or eye contact, flush with water for 15 minutes and seek medical attention. If ingested, rinse mouth with water, drink water or milk and seek medical attention. If inhaled, and breathing becomes difficult, immediately seek medical attention.
